# Strategy Building & Backtesting Project

**Project Breakdown:**

## 1. Data Source

Historical data was downloaded using Yahoo Finance API (yfinance).

## 2. Strategy logic

- Buy when daily close > 50 EMA.
- Exit only via stop loss or target.
- No EMA-based exit.

## 3. Risk Management

- 1% capital risk per trade.
- Risk-Reward ratio = 1:2.
- Dynamic Position Sizing ensures fixed percentage risk.

## 4. Assumptions

- No brokerage or slippage included.
- Long-only strategy.
- Daily closing price execution.
